It consists of the case number and the party name for the different registry account types. It displays the case number, party name, increases, decreases and the net credit balance for that case number.

All records are listed in case number order. The last page in the report displays the totals.

The report runs every day of the week except on weekends.

The recommended software for viewing the report files is Adobe Reader. If other software such as Notepad is used, the column headings may not line up properly. Also, due to the large size of the file, it may take several minutes for it to display.
