 TOTAL SENTENCE POINTS 43.0

SENTENCE COMPUTATION

• If total sentence points are less than, or equal to 40, the sentencing court may not impose a state prison sentence. The sentencing court may increase total sentence points that are less than or equal to 40 by up to 15 percent and may impose a state prison sentence if the increased total exceeds 40 points.

$$\frac{43.0}{\text{Total Sentence Points}} \times 1.15 = \frac{49.4}{\text{Increased Sentence Points}}$$

• If total sentence points are greater than 40 and less than or equal to 52 the decision to incarcerate in a state prison is left to the discretion of the court. If total sentence points are greater than 52 the sentence must be a state prison sentence.

• A state prison sentence is calculated by deducting 28 from total or increased sentence points.

$$\frac{49.4}{\text{Total Or Increased Sentence Pts.}} \text{ minus } 28 = \frac{21.4}{\text{State Prison Months}}$$

• The sentencing court may increase or decrease state prison months by up to 25 percent except where the total sentence points were less than or equal to 40 but have been increased by up to 15 percent to exceed 40 points. Any state prison sentence must exceed 12 months.

$$\frac{\text{State Prison Months}}{\text{State Prison Months}} \begin{cases} \times .75 \\ \times 1.25 \end{cases}$$
